Education

since 2008	In 2008, she learned Percutaneous Electrolysis (P.E.) and has since then also trained and specialised in Advanced Musculoskeletal Ultrasound for Physiotherapists. Subsequently, and still today, she regularly attends E.P. and Percutaneous Ultrasound-guided Neuromodulation refresher courses with Invasive Physiotherapy specialists Fermin Valera and Francisco Minaya.
since 2006	Becomes a Specialist in Invasive and Conservative Treatment of Myofascial Pain Syndrome from the hand of Orlando Mayoral Del Moral, international reference in "Dry Needling"(DN) -Travell&Simons School-. Over the years he has focused his specialist training in the field of Invasive Physiotherapy: advanced DN, "Spinal Segmental Sensitisation" and Acupuncture in Physiotherapy.
since 2001	Graduated in Physiotherapy from the University of Murcia in Spain in 2001.

Work Experience

since 2016	He began practising and disseminating E.P. in Ticino, a first for Switzerland, treating problems of musculo-skeletal origin on precise indications and in an Eco-Guided manner. The technique is now used in direct and close collaboration with the accredited doctors of the Ars Medica Clinic in Gravesano.
since 2015	He works at the Physiotherapy Service of the Ars Medica Clinic in Gravesano.
since 2002	He works as an independent physiotherapist in Spain, collaborating with several medical and physiotherapy practices.
