Dr. med. Constanze Kämpfer

Neurology

Languages

FR,DE,EN

Education

After completing her medical studies at the University of Cologne, Germany, and obtaining a doctorate in medicine, the Doctor specialised in the field of neurology.

Work Experience

Trained in the neurology department of the HUG in Geneva, she worked there for several years as a clinical head, in particular in the neuromuscular diseases and movement disorders units. She has also worked for several years in emergency and general neurology, with a particular interest in epileptology and headaches.

She also offers electrophysiological examinations and specialised procedures:

- Electroneuromyography (ENMG)
- Sensory and motor evoked potentials (PES/PEM)
- Electroencephalogram (EEG)
- Botulinum toxin injections (dystonia, spasticity, hypersalivation, myofascial syndrome, bruxism, etc.)
- Translated with DeepL.com (free version)

Memberships

- Societé Suisse de Neurologie (SSN)
- Société Suisse de neurophysiologie (SSNC)
- Societé Association Suisse des Médecins (FMH)
- Association des Médecins du canton de Genève (AMGe)
